DETAILED ACTION

This office action follows a request for continued examination (RCE) under 37 § C.F.R. 1.114, filed on April 30, 2004. The first office action for this application was sent on June 9, 2003. Applicants have now filed a petition for unintentionally delayed domestic claim of benefit to earlier filing date under 37 C.F.R. 1.78(a)(3). The petition was entered into the record on May 3, 2004.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

3. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over EP 942 042 to Colvin *et al.* for the same reasons set forth in previous office actions.

4. Claims 1-20 are also rejected under 35 U.S.C. 103(a) as being unpatentable over EP 942 042 to Colvin *et al.* in view of U.S. Patent No. 5,614,580 to Zanzig *et al.* or U.S. Patent No. 5,674,932 to Agostini *et al.* for the same reasons set forth in previous office actions

Response to Arguments

5. Applicant's arguments have been considered fully, but they are not persuasive. Applicants offer the same arguments presented in previous responses, and examiner's response remains invariant. Therefore, these arguments need not be presented here.

Conclusion

6. To date, Applicant's petition has not been granted. As such, the claim rejections remain in force. Claims would be allowable over U.S. Patent No. 6,469,104 to Colvin *et al.* if the petition is granted.

7. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
